constrained palette-space exploration- supplementary materials - constrained palette-space exploration- supplementary materials • 1:3 fig. 7. constraint graph of the harmonization scene, composed by a complete constraint graph and unary anchors constraining the initial saturation **shape space exploration of constrained meshes** - manifold exploration characterizes the (non-linearly constrained) design space, allowing direct design (right). in the context of mesh deformation, a naïve possibility is to **on exploration of geometrically constrained space by ...** - on exploration of geometrically constrained space by medicinal leeches hirudo verbana andrew adamatzky unconventional computing centre and bristol robotics lab, **prospects for space exploration - euroconsult-ec** - by programs in leading countries and new countries investing in space exploration. in a still constrained budgetary environment, global space budgets for space exploration are expected to grow to over \$20 billion by 2027. future funding for space exploration is expected to grow to support the ambitious plans of the next decade. nonetheless, national investments will remain constrained by their ... **resource constrained exploration in reinforcement learning** - resource gathering trajectories in the state-action space, in order to do so it must spend that resource to explore the space and gather information. this raises the question of how to represent exploration and exploitation value quantitatively in the rl framework and how to consolidate these two in an adaptive and nonmyopic way. as shown in chung et al. [2], by approximating the value ... **spirou: constrained exploration for mechanical motion design** - automatically generated to explore the resulting constrained space. recently, guerrero et al. [2016] proposed efficient local approximations to enable exploration of parameter variations by dropping **constrained space exploration technology program** - constrained space exploration technology program constrained space exploration technology program constrained space exploration technology program *free* constrained space exploration technology program the emptiness of fermi's paradox as an argument against its rests, i think, on the unlikelihood that advanced technological civilizations would ever explore or colonize their universe in the ... **safe exploration and optimization of constrained mdps ...** - safe exploration and optimization of constrained mdps using gaussian processes akifumi wachi university of tokyo wachi@space.t.u-tokyo yanan sui and yisong yue **a 21st century space exploration enterprise - nasa** - • nrc report, a constrained space exploration technology program: a review of nasa's etdp, 2008: "nasa has created a supporting technology program very closely coupled to the near-term needs of the constellation program. **modeling and verification of network-on-chip using ...** - modeling and verification of network-on-chip using constrained-devs soroosh gholami hessam s. sarjoughian school of computing, informatics, and decision systems engineering **a constrained space exploration technology program: a ...** - the national academies press 500 fifth street, n.w. washington, dc 20001 notice: the project that is the subject of this report was approved by the governing board of the national research council, **interactive design exploration for constrained meshes** - allows interactive exploration of the shape space. our contribution includes: a unified formulation of equivalent conditions for shape constraints, equipped with proximal operators with intuitive geometric meanings; 4 a general shape optimization framework that enforces both soft constraints and hard constraints, with an augmented lagrangian solver consisting of simple subproblems that can be ... **intuitive design exploration of constrained meshes** - intuitive design exploration of constrained meshes figure 2: given a single input mesh along with a set of constraints that should be preserved (e.g., each mesh face should be planar as in this example), we construct a constrained mesh **limiting future collision risk to spacecraft: an ...** - a constrained space exploration technology program: a review of nasa's exploration technology development program (aseb, 2008) launching science: science opportunities provided by nasa's constellation system (ssb with aseb, 2008) **interactive design space exploration and optimization for ...** - interactive design space exploration and optimization for cad models adriana schulz, ... influence of each sample is constrained to the local regions where mesh morphing can be computed). we show examples of how our method can be used to interactively visualize and optimize objects with a variety of physical properties. this work is supported by the national science foundation, under grant ...
